

To Whom It May Concern,

Throughout my life, I've never stopped listening to music. It's the only medium that I consume for hours a day. Run For Cover has been a mainstay, my first introduction being through Daniel Bressette, the designer of Transit's *Keep This To Yourself* and later the RFC logo; From then on I've been following along.

I'm currently studying at the Maryland Institute College of Art, where I entered as a Graphic Design major, later switching because I felt I wasn't learning anything. Since I was 9, I've been learning about Graphic Design through programs like Adobe's late *Fireworks*. From then on, learning the rest of the Adobe Suite. My favorite thing to do when I was younger was to create fake albums, designing the album cover and layout. Going into my Junior year, I decided to change to Photography, as it would compliment my GD workflow.

Going into my Senior year, I have my eyes set on Boston as the next destination. I'd love to help out in the music scene where I can and I want it to be through Run For Cover, the label that's kept me grounded for all these years.
